

Application

This type of air/air exchanger is dedicated to cool powerful GTO. It is screwed on the cabinet.

Main Characteristics

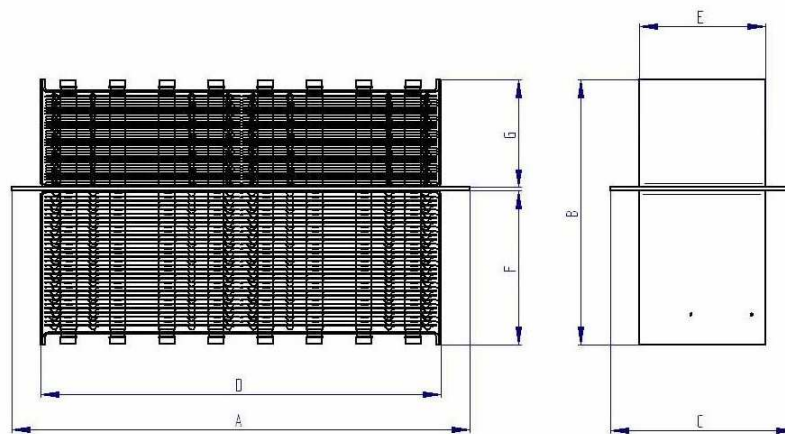

Its working position is horizontal. Nevertheless under specific conditions, it is possible to have it working on a vertical position.

Its dimensions can be modified according to air flow strength and speed.

Specifications :

- Power : 900 W
- Rth : < 65° C/kW with air T° at 20° C
- Air speed: 4m/s
- Heat pipe : water or ethanol
- Working temperature : -28° C to +70° C
- Fins : aluminium
- Material : aluminium

Technical characteristics

A = 480 mm
B = 280 mm
C = 195mm
D = 420mm
E = 135 mm
F = 165 mm
G = 115 mm
