

Sintered Heat Pipe for Avionics application

Airplane application

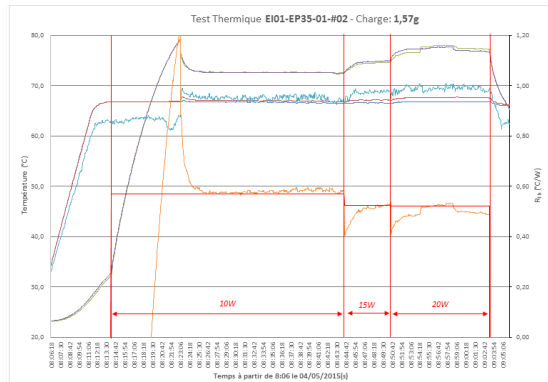

Ships cooling device

Rackable board, in a liquid cooled cabinet

Power dissipated up to 30W

Works against Gravity

$R_{th} \approx 0,5^{\circ}\text{C/W}$

	Upper HP (with gravity)	Lower HP (against gravity)
Max dissipated power (W)	20W	20W
Thermal Resistance (K/W)	0,34 à 0,52 °C/W	0,31 à 0,66°C/W
